

Training Web Sites

The following civilian employee training Web Sites are the ones that we think you will most need to access.

They are current as of the day we printed this pamphlet. If any sites have changed please let us know. If you know of any other civilian employee training sites that would be of use please let us know that too. Our fax number is on the reverse.

We are providing this service to you because we believe you can get many of your questions answered faster if you contact the training site directly. Many have their schedules on-line, provide phone numbers, fax numbers, and sometimes even direct e-mail access to provide you even more timely answers.

We encourage you to use this latest technology to your advantage!
